

# IMPRESSIONS FROM THE EUROCHOIR

"I found my soul and happiness in EuroChoir. I found a feeling of home and a new international choir family there. I've never experienced such beautiful emotions!

I found inspiration to keep going in my professional path as a choir conductor. I enjoyed each day and each sound of this beautiful 11 days!

The experience that I gained there, memories, connection and even repertoire were amazing!

And there is nothing more important for musicians than this kind of real-life-experience, where you have to make deep connections with absolutely new people, so you can connect with each other in the moment of making music together. This is true choir magic."

Best wishes,
