Conductors' ass.	See A2, associations with individual members as indirect beneficiaries, and then the corresponding size					
Partners / Associate Institutional members	See A4, others, in as far as they fit the definition in our statutes					

In autumn 1999 the General Assembly decided that the Board should plan with a rise of the fees every three years but that the General Assembly must always have the possibility to vote the proposal. Since then a proposal for new membership fees has been presented every three years for the year after the EC-Festival. At the occasion also the system of country groups was regularly reviewed, and the fees were raised by 2 to 10 % (sometimes over 10% with small fees in order to publish rounded figures) . In 2022 we introduced a new system of categories approved by the members in May 2022

The board decided that from 2025, member organisations paying their fee before 31/3 shall NO LONGER be given a reduction of 5%
